

## PhytoCare® Ruminant Newborn:

- A preventative enteric application for all ruminant newborn animals
- Veterinary formulated to support natural enteric cellular development
- Polyphenols help to continue healthy natural cellular development at the intestinal and mucosal level
- Contains patented activated phytonutrients from selected plant extracts

### DOSING INSTRUCTIONS:

- \* 1cc per each 10 lbs. of body weight
- \* Dose for two days orally between day 2 and 14
- \* Add to milk replacers, drinking water or oral drench
- \* If severe osmotic diarrhea is seen use Rumanant GI-Revive™ Solution or paste

**PRECAUTIONS:** For animal use only. Once the new born calf has rumen activity the APM™ treatment should be stopped and other intervention should be considered.

**STORAGE:** Protect from freezing, store in a cool, dry place out of direct sunlight. Temperatures of 40F to 80F. Keep container tightly closed when not in use.

**ALL-NATURAL CONTENTS:** PHT proprietary formulations of plant extractives containing: camellia sinensis, punica granatum and PC-BE3 fruit based phytogetic extract.
